V. Chair Report/Executive Director Report

Chair Report

Linda Hudson announced that items requiring a vote will occur at the end of the meeting as a quorum is not yet met. There are a lot of people out sick.

Executive Director Report

Teresa Bishop presented the Executive Director Report (see attached).

VI. Announcements/Agency Updates

- Clint Sperber – Showed a short video by Dr. Peter Lin that describes the coronavirus symptoms. He noted that as of yesterday there were two residents in Florida with the virus. The challenge is that this is a new virus and not much is known about it yet. He advised that if anyone has symptoms to stay at home. This mainly affects the elderly and children have low severity of it – much like the common cold.

VII. Community Health Assessment

The Health Department conducted a focus group regarding the top priorities in St. Lucie County. The very top strength is the collaboration of agencies at the Roundtable level.
